OTHER PROJECTS

PROJECTS

MAPIN

- <https://github.com/leandroadiarz/MapPin>
 - This app will allow you to search, save and recover full map with all destinations as a Custom Map. Great for travel and create a destination route that will let you know how to get from your current location to the destinations saved on your map List, what is the current weather and alternative routes to each one. Every pin has a different color so you can differentiate where are you going specifically and anything of interest on that specific area.
 - Available on **iPhone** and **iPad**.
 - Minimum requirements: **iOS 13**

GITHUB FOLLOWERS

- <https://github.com/leandroadiarz/GitFollowers>
 - 100% Programmatic UI
 - Follow GitHub users
 - Save favorites users
 - See they're Repos
 - See they're Followers List
 - Available on **iPhone** and **iPad**.
 - Minimum requirements: **iOS 13**

TIMER APP

- <https://github.com/leandroadiarz/TimerApp>

It's a Simple timer with a modern layout and adaptable to any screen size, 100% programatically conforming to MVC pattern, will be updated with a UIBezierPath progress bar in version 1.1

- Available on **iPhone** and **iPad**.
- Minimum requirements: **iOS 13**

MAMMALZ

- <https://apps.apple.com/us/app/mammalz/id1478601231>

- Work in collaboration of an agile and team for a client that required some minor implementations and bug fixes before the last release of the new version of this App.
- Livestream functionality was broken due to wrong implementation of in one of the plugins
- Join a live stream to meet filmmakers, naturalists, adventurers, guides, scientists, birdwatchers, travelers, organizations, educators, or any of the millions of people worldwide who love nature. Enjoy a dose of live nature content any time of the day. Mammalz brings a new possibility to encounter nature like you've never seen before. Come join a global community of people who love sharing their own unique perspectives on the natural world.
