PROFILE

Kissimmee, Florida, USA • Senior iOS Engineer | SwiftUI | UIKit | Mobile Architecture | Enterprise Applications

PROFESSIONAL SUMMARY

Senior iOS Engineer with 8+ years of experience building, modernizing, and scaling enterprise-grade mobile applications used by millions of users across logistics, retail, entertainment, insurance, and financial services industries.

Specialized in Swift, SwiftUI, UIKit, MVVM architecture, mobile security, biometrics, CI/CD pipelines, and performance optimization. Proven track record leading large-scale modernization initiatives including Objective-C to Swift migrations, UIKit to SwiftUI transformations, architecture redesigns, and enterprise mobile platform improvements.

Recognized for delivering high-quality applications, mentoring development teams, improving software reliability through automated testing, and translating business requirements into intuitive mobile experiences.

CORE COMPETENCIES

Mobile Development

- Swift
- SwiftUI
- UIKit
- Objective-C
- iPadOS Development
- Cocoa Touch
- Foundation Framework

Architecture & Design

- MVVM
- MVC
- Coordinator Pattern
- Modular Architecture
- Dependency Injection
- Design Systems

Modern iOS Technologies

- Async/Await
- Combine
- PromiseKit
- Core Data
- Core Location
- Biometrics
- Push Notifications

Testing & Quality

- XCTest
- Unit Testing
- TDD
- Xcode Instruments
- Performance Optimization

Backend & Integrations

- REST APIs
- JSON
- Firebase
- Azure DevOps
- SQL Databases
- Authentication & Security

DevOps & Collaboration

- Git
- Bitbucket
- CI/CD Pipelines
- YAML Configuration
- Agile Development
- Cross-Functional Leadership

PROFESSIONAL EXPERIENCE

Senior iOS Developer TQL (Total Quality Logistics) Remote | Nov 2023 – Present

Lead modernization efforts across enterprise logistics applications, transitioning legacy UIKit codebases to modern SwiftUI implementations while improving performance, maintainability, and developer productivity.

Key Achievements:

- Led migration from MVC architecture to MVVM, significantly improving scalability and testability.
- Implemented modern asynchronous programming using Async/Await, Combine, and PromiseKit.
- Developed and delivered new Swift-based features supporting logistics operations.
- Established comprehensive XCTest coverage for critical application workflows.
- Mentored junior engineers and promoted engineering best practices.
- Resolved complex Azure DevOps and Bitbucket CI/CD pipeline issues.
- Collaborated with business and engineering stakeholders on strategic mobile initiatives.

Technologies:

Swift, SwiftUI, UIKit, Combine, Async/Await, XCTest, Azure DevOps, Bitbucket

Senior iOS Developer (Contract) Home Depot || Remote | Oct 2024 – Mar 2025

Modernized a large-scale internal iPad application through extensive refactoring and architecture improvements.

Key Achievements:

- Migrated legacy Objective-C codebases to Swift.
- Transitioned UIKit screens to SwiftUI.
- Improved maintainability through modular architecture.
- Reduced technical debt and increased long-term scalability.
- Collaborated closely with business stakeholders and engineering teams.

Technologies:

Swift, SwiftUI, UIKit, Objective-C

Senior iOS Developer || American Family Insurance (Apex Systems) Remote | Feb 2023 – Oct 2023

Designed and delivered customer-facing insurance features while supporting enterprise mobile modernization initiatives.

Key Achievements:

- Built scalable Swift-based features for policyholders.
- Improved application stability and performance.
- Collaborated with product, design, QA, and backend teams.
- Mentored developers on modern iOS development practices.

Technologies:

Swift, UIKit, SwiftUI, REST APIs

Senior iOS Developer || Universal Orlando Resort (Apex Systems) Remote | Feb 2022 – Feb 2023

Contributed to the innovative MagicBand Watch initiative, leveraging biometrics and secure authentication to improve guest experiences across the resort ecosystem.

Key Achievements:

- Developed biometric-enabled guest access experiences.
- Integrated Touch ID, NFC, and secure authentication workflows.
- Implemented encryption strategies for sensitive guest data.
- Migrated legacy Objective-C code to modern Swift solutions.
- Collaborated with hardware engineering teams on software integration.
- Performed extensive performance tuning and optimization.
- Led technical initiatives and mentored team members.

Technologies: Swift, SwiftUI, UIKit, Objective-C, NFC, Biometrics, XCTest

Lead iOS Developer || Staples Remote | Feb 2020 – Feb 2022

Led development of two major customer-facing initiatives: Native Shipping and Staples Loyalty Program.

Key Achievements:

- Architected and launched the Staples Loyalty Program.
- Built Native Shipping functionality integrated with UPS systems.
- Led migration from Coordinator architecture to MVVM.
- Improved reliability through modular architecture design.
- Transformed Figma designs into production-ready SwiftUI experiences.
- Optimized performance using Xcode Instruments.
- Implemented and maintained CI/CD deployment pipelines.

Technologies:

SwiftUI, UIKit, Swift, REST APIs, Xcode Instruments, CI/CD

iOS Developer || TQL (Total Quality Logistics) Remote | Jul 2019 – Jan 2020

Developed and enhanced logistics-focused mobile applications supporting carrier operations.

Key Achievements:

- Built new Swift and Objective-C functionality.
- Optimized application performance.
- Collaborated with cross-functional teams.
- Contributed to architecture and product planning initiatives.

ADDITIONAL EXPERIENCE

Cognizant / TriZetto || iOS Developer 2018 – 2019

Projects included enterprise mobile development engagements, including Capital One initiatives.

FEATURED APP STORE PROJECTS

- Staples Connect
- Universal Orlando Resort
- TQL Carrier Dashboard
- American Family Insurance
- Mammalz
- SoftDevJobs

Additional Open Source Projects:

- Connect
- MapPin
- GitFollowers
- Timer App
- Swift Knowledge Test
- ArtCreator (iPadOS)
- Portfolio Projects

EDUCATION & CERTIFICATIONS

.NET Full Stack Engineer Program BrainStation 2021
iOS Development Bootcamp BrainStation New York, NY 2017
Linux+ & Network+ Certification Training Cybrary 2019

TECHNICAL HIGHLIGHTS

- 8+ Years of Professional iOS Development
- Enterprise Mobile Applications
- SwiftUI Adoption & Migration
- Objective-C Modernization
- Mobile Architecture Leadership
- Biometrics & Security
- CI/CD & DevOps
- Unit Testing & Quality Engineering
- Performance Optimization
- Team Mentorship & Technical Leadership
